"The Valley of the Giants"

Miss C. E. Barber To Give Recital

Charlotte E. Barber, B.E., will give a recital of humorous and dramatic readings, impersonations, monologues, etc., in Campbell's hall on Monday, Sept. 24th, at 8:30 p.m. This entertainment, under the auspices of the Champion Ladies' Aid, will give residents of town and vicinity an opportunity to hear a real artist and there can be no question as to the response. Admission 50c and 25c.

Mrs. Jas. Muir Is "Showered"

A community shower was held in the church on Thursday evening, September 13th, for Mrs. Jas. Muir, nee Miss Thelma Williamson. The evening was spent in contests, Mrs. Muir winning the prize for best paper hat and Mrs. Williamson's group the prize for the best poetry composed referring to the bride. The church was decorated with cut flowers, house plants and tall candles, the center of interest being the bride's cake, and a handsome doll dressed as a bride, which was greatly admired. The gifts to the bride, which were drawn into the church on a tea wagon which was nicely decorated, were numerous and appropriate and expressed to some extent the esteem in which the bride was held by many friends here. Refreshments were served at the close of a very pleasant evening.

Has Thumb Almost Torn From Hand

On Thursday afternoon of last week Joe LaMorris, an employee of the Champion Garage, was fixing an engine in the U. G. G. elevator on which the switch had been left in contact. An explosion occurred while he had the loose piston in his hand, tearing the thumb almost from the hand. On Saturday he was taken to the hospital in Calgary for treatment, as the injury promised to be serious. Information has been received that he is doing as well as could be expected.

Meat Market Till Rifled Again

The Champion Meat Market had visitors looking for money again last week during the night. The thieves secured some two dollars in nickels and dimes, having picked the only night any money had been left in the store. This constant repetition of entry being made to certain premises where a lot of business is done would lead to the suspicion that some one is on the job who is in a position to look the ground over carefully before breaking into the premises.

Opening of Season Duly Honored

The shooting season opened on Saturday and was very generally observed by local sportsmen, some very satisfactory bags being reported. One party had the misfortune to drive their car into an alkali bed east of town in the valley and spent most of their time getting it out of the mud, in this way curtailing the number of birds secured. Otherwise the only casualty appears to have been the loss of a dog by A. Diemet, the animal having been shot in error by some eager hunter. Birds are reported unusually plentiful this year but are quite wild, having evidently been scared before the season opened.

Mrs. G. A. Orr is in Calgary and while there will attend the fiftieth anniversary of her parents' wedding.

JOPLINGS

Local and General

A son arrived to Capt. and Mrs. Dancy on Sunday night in Vancouver. Mother and son are doing well.—Carmangay Sun.

Mrs. D. Watkins entertained a number of ladies on Friday afternoon, September 14, in honor of Mrs. M. G. Gever's birthday.

Mr. and Mrs. H. E. Gill drove to Lethbridge on Sunday, accompanied by Mrs. Ellen Gill, who will visit relatives in Lethbridge some days before returning.

Among the old timers in the district at present is J. G. Dougherty, who is looking after interests in crop and land. He is looking as hale and hearty as ever.

Art Anderson, accompanied by Mrs. Anderson, spent last week at the farm. Art is on the ground to help Albert dispose of the 500 hogs they have for sale.

The low price of fruit is leading to increased purchases by housewives this year and the past week has seen an enormous number of cases leaving town for the country.

Edith Fleming is in the Calgary hospital suffering from a ruptured appendix. At latest reports she was doing as well as could be expected under the circumstances.

J. M. Moffatt, who was indisposed for a few days last week, is able to be around again. The bad cold, which has been very prevalent here, was the source of the trouble.

Victoria Love

Graduate of Maxine Beauty College Vancouver, B.C.

Will be in W. McInnes' Barber Shop Commencing Saturday, September 29th.

All the Latest Modes in the Line.

Ruby Graham

Teacher of Pianoforte and Theory

In Champion on Friday and Saturday of each week. Studio at the residence of Mrs. G. M. Campbell.

Pupils prepared for examination if desired.

THURSDAY, Sept. 21, 1928

NOTES AND COMMENT.

The general adoption of trucks for delivering grain to the elevators is rendering the work of the railroads more and more difficult. Such an amount of grain can be delivered on the market in so short a time that to provide cars for its transportation to Vancouver or the head of the lake and prevent congestion in the local elevators is a physical impossibility. Country elevators have increased very rapidly in numbers in recent years but this increase and improved railway facilities have failed to keep pace with the ability of the farmers to get their grain to the elevators in a very short period of time. Hundreds of granaries were built in this district last year and still the difficulty remains the same and large amounts of grain will be dumped on the ground in the next few days.

The Chronicle is informed that the village council has had the improvement of the street from the Canadian Bank of Commerce north under consideration for some time and had made arrangements to have it fixed, but the contractor moved from town before it was possible to secure a scrapper to loosen up the gravel. As the members of the council direct their own cars over the offending section of the street quite regularly there must be more than the ordinary difficulty in this instance or an effort at repairs would have been made long ago.

Threshing, both by combines and regular threshing rigs, is proceeding rapidly and results are generally considerably better than was anticipated in most instances. The very spiky character of the frost is plainly evidenced by the mixture which frequently occurs in the same field. Weather conditions have been extremely satisfactory and should storage facilities be equal to the occasion the grain will flow to the elevators very rapidly. Considerable grain is being stored on the farms, a fact that will materially assist in preventing a serious blockade.

WILL ASK U. S. TO PARTICIPATE IN DELIBERATIONS ON REPARATIONS

Geneva, Sept. 17.—The belief prevailed today that the United States would undoubtedly be asked to participate in deliberations of the commission of experts that will work for a complete and definite settlement of the reparations problem.

After a series of conversations, Great Britain, France, Germany, Italy, Belgium and Japan reached an agreement to name the commission and an accord in principle for special official negotiations looking to the evacuation of the Rhineland.

In some circles the opinion was held that discussion of reparations would lead to a discussion of war debts in general.

Disclaimers were issued, however, that Europe had any wish to drag the United States into the reparations discussion. Nevertheless, the general opinion in political circles appeared to be that nothing sound, complete or final could be achieved without the collaboration of America either through government representatives or financiers who would reflect Washington's views.

Basis For Collaboration
When delegates of fifty nations to the assembly of the League of Nations heard of the accord, the opinion was voiced that statements had begun to write the last chapter on liquidation of the consequences of the great war. Not only representatives of European governments but those from lands beyond the seas as well, saw in the preliminary agreement a solid basis for effective collaboration between governments and people for a general solution of the problems left by the war was particularly of all financial problems arising from fixation of German reparations on a basis of Germany's capacity to pay.

Some Geneva newspapers in describing the agreement called it colonial. That Japan was invited to sit on the commission of financial experts which will tackle the reparations problem was taken to indicate that Europe's belief was that the question was not only European but international in its scope with possible repercussions.

German Hopeful
A German spokesman said today that when the discussions began there would be no record of the necessities and the hopes of Germany and the allies in connection with reparations. The German belief was that Seymour Parker Gilbert, agent-general for reparations, had already admirably paved the way for the proposed study.

The belief was generally expressed also that the negotiations would have a repercussion on the Beveridge accord under which France has been provisionally making arrangements for debt payments to the United States. Some thought it would be difficult if not impossible to avoid discussion of the relation of German reparations to the inter-allied debts in general.

Child Marriages
Geneva, Sept. 15.—(By Canadian Press Cable, via Reuters).—In the sixth committee of the league assembly, Dr. W. A. Riddell, Canadian delegate, yesterday asked on behalf of the International Women's Alliance for suffrage and equal citizenship, when the Palestine government proposed to hold its conference of heads of religious communities to consider alterations in the rules and customs regarding child marriages.

Godfrey Locker Lampson, British under-secretary for foreign affairs, replied that at the time when the conference was originally proposed, the high commissioner in Palestine decided after the most careful consideration of all aspects of the problem that such a conference would not be opportune and therefore would not be held. A fresh demand for legislation on the subject has now been received by the high commissioner, who is asked to review the whole question of summing a conference.

The British representative reminded the committee that the difference in religions and customs among the various communities in Palestine and mandated territories was very marked. Any interference with these customs was liable to arouse violent animosity and consequently the question must be most carefully approached.

Dunning Complaints
Geneva, Sept. 15.—"It is impossible for radio listeners in certain parts of Canada to hear some of our stations while transmitting is going on in our neighboring country," said Chas. A. Dunning, Canadian minister of railways, at a meeting of the technical committee of the League of Nations assembly today. He suggested that the question of re-allocating radio wave lengths should be taken up by the transit organization of the league.

WORLD SERIES OPENS OCT. 4

New York, Sept. 17.—The world

series of 1928 will start on Thursday, October 4, in the park of the club winning the American league championship, Commissioner Landis announced here today. The date was chosen in preference of October 3 because of the close race in both leagues and the necessity of handling vast numbers of tickets on short notice.

CRITICIZES MOVE TO BRING OBOLSS FROM BRITAIN

Toronto.—Immigration problem formed the chief subject of discussion at a session of the Trades and Labor Congress of Canada, which was held here last night. While there were few aspects of the immigration policy left untouched, the highlights of the session were the denunciation of the British nine-harvester movement and an address by Hon. Peter Heenan, in which the Minister of Labor spoke forcefully with the immigration question.

Mr. Heenan charged that there was a well-thought out campaign being conducted in Great Britain to stampede the Dominion government into bringing British unemployed to Canada on the shipload. The program was motivated by the desire of certain interests in the old country to drive a political wedge and encourage by persons in Canada who wanted to flood the labor market and provide men for every job.

As an instance of the working of the scheme, the speaker said that advertisements in England were telling the people that coal miners were wanted in Canada at high wages when as a matter of fact there was a surplus of miners in every coal field in the Dominion.

"It is to," declared Mr. Heenan, "to say that the British unemployed do not want to work and that they are content to submit to the delays. They want to work and so the false reports of loss of work and high wages in Canada are eagerly received."

"Canada ought to have something to say about this," he continued, "and ought to be a part of the scheme where we can take up the paper and read calmly that a British newspaper has allowed a man convicted of a crime to go on an unpaid sentence if he migrates to Canada."

The labor minister defended the movement of British miners to Canada for harvest labor, and pointed out that it was separate from immigration policy generally.

"We know we could get men in other parts of the world," he said, "but the British government offered us 25,000 men, accustomed to hard manual work, and why should we turn down our own flesh and blood?"

Gambling In Latin Values

Says Prices All Over Canada Are Higher Than In England

London, Ont.—Gambling in land by all classes of Canadian citizens is one of the major reasons why prices here are higher than in England, at such prices, declared A. G. Daulton, of Toronto, speaking at noon before a luncheon session of the Royal Planning Institute of Canada convention now being held in the city. The speaker quoted prices to show that land values were higher here than in England or other countries and he stated that the chief reason for this was a speculative speculation in properties all over the Dominion.

Most Carry Parachutes
Copenhagen.—Due to the frequency of accidents this year, all Danish military and naval aeroplanes will be equipped with living parachutes from Oct. 1. Military orders decree that no aviators should fly without a parachute attached.

Infantile Paralysis In Montreal
Montreal.—Four cases of infantile paralysis were reported at the city hall in the past week and Dr. Bouché, medical officer, has issued a warning to take precautions against an epidemic.

Queen Marie May Marry
Rome.—An unconfirmed report was received here that Queen Marie, of Rumania, widow of the late King Ferdinand and grandmother of King Michael, may become engaged to a wealthy American.

Entertained Prince George
Hollywood, Calif.—Prince George, who is a lieutenant of H.M.S. Thurston now anchored at Santa Barbara, slipped into Hollywood by automobile and was the guest of Douglas Fairbanks and Mary Pickford.

New British High Commissioner
London, Eng.—Sir William Clark, the new British high commissioner to Canada, accompanied by Lady Clark and their two daughters, are sailing for Canada on the Empress of Scotland.

* Africa is inhabited with 140,000,000 black and 4,000,000 white people.

Old Age Pensions Paid

Amount In B.C. Totalling \$441,222 Up To June Last

Ottawa, Ont.—Old age pensions totalling \$441,222 had been paid up to June 30, 1932, to 3,100 persons in British Columbia who had taken advantage of the scheme, according to statistics just compiled by the department of labor.

Of this amount the federal government paid one-half. British Columbia's pensioners comprised 22 per cent. of the population of that province over 70 years of age. The average monthly pension was \$137.47, the pensioners being divided as 1,871 males and 1,370 females.

Properties owned by these pensioners, is valued at \$1,020,782. Of the pensioners in British Columbia, 271 were previous residents of Ontario, 207 of Alberta, 179 of Manitoba, 170 of Saskatchewan, 75 of Nova Scotia, 67 of Quebec, 18 of the Yukon, and 10 of Prince Edward Island. When any of those provinces come into the scheme a proportion will be paid to the pensioners in British Columbia will be charged to the respective provinces.

Saskatchewan has been paying pensions since June and expects to have 1,000 on its payrolls in September.

Manitoba and the Yukon will be paying pensions soon.

Opportunities In Peace River

Lord Lovat Finds That British Settlers Are Doing Well In North Country

Edmonton, Alta.—"There are wonderful opportunities for British settlers in the Peace River country," declared Lord Lovat, minister of the British Overseas Settlement committee, on his return to Edmonton following a week's tour in Canada's far north.

"We met several of the British families who were settled at various places throughout the Peace district of the Peace River country," declared Lord Lovat, "and they are doing well, and are more than satisfied with their lot."

Many of these men were miners, and few of them had any previous farming experience, but they are making good, and their experience shows clearly that given the will to succeed, lack of experience is no bar to success.

Lord Lovat found that over 3,000 homesteaders and settlers have gone into the Peace district this year, and everywhere there prevails a spirit of optimism for the future.

Submarine Rescue Device

U.S. Navy Tests New Apparatus For Saving Ship Crews

Off Solomon Island, S.D.—Success of tests with the "rescue" device, intended to enable men trapped in sunken submarines to reach the surface, was demonstrated today in a future tests prove an encouraging, all naval suits, was equipped with them.

Three naval divers descended in a diving bell to a depth of 155 feet and arose slowly, breathing high air, and were seen to be in good health. The device consists of a rubber bag resting against their chests. They reported no discomfort. It is said to be the most practical device ever invented for the purpose.

Will Publish Naval Accord

No Secret Clause In Agreement, Says Britain

Geneva.—The much-discussed Franco-British naval accord is to be made public by France through the League of Nations committee of disarmament.

Foreign Minister Briand of France, announced this decision after a speech before the League Assembly in defense of the agreements. He said the understanding would be introduced into the League as an example of efforts being made to hasten disarmament.

In his speech he asserted that there would be no secret clauses in the agreement.

Native Should Avoid War
Geneva.—An earnest appeal that native races should forever be kept outside the range of modern warfare, was made by Hon. J. S. Smith, South African minister in London, and representative of the League of Nations, in addressing the League assembly.

Ex-Emperor Dismay III

Copenhagen, Denmark.—The ex-emperor Dismay, the 81-year-old widow of Alexander III, of Russia, and sister of Alexandra, the late Queen Mother of England, is seriously ill here.

New 'Plane Tested

Demonstration At Los Angeles Proves Automatic Landing Feasible

Los Angeles.—A tiny "plane" constructed on a new vertical principle, made successful test flights here, demonstrating, observers said, that an aircraft can make an automatic landing.

Merle F. Kelley, who piloted the plane, was said to have taken the craft from the ground on 8 1/2 seconds, soared sharply upward, cruised at 100 miles an hour and then landed with both hands aloft.

The new principle was described by A. A. Merrill, inventor, as tilting the wings, which are a single unit, in relation to the speed velocity in the cockpit.

The plane has a short fuselage and very little tail. In its construction the inventor was assisted by Dr. Clark Millikan, son of Dr. R. A. Millikan, Dr. Harry Bateman, and Dr. A. Klein, all of the California Institute of Technology.

U.S. Building De Luxe 'Planes

Passengers Will Be Assured Of Every Convenience For Comfort

Los Angeles, Calif.—Four aeroplanes, capable of carrying 20 passengers, equipped with luxurious private apartments and sleeping berths, are being built by the Keystone Aircraft Corporation at Los Angeles, Penn. Edgar Scott, president of the firm has announced.

The new monoplanes, the largest ever built in this country, will be of all design and 100-motored. They can speed at 150 miles per hour. Provisions for hot and cold running water are made in the sleeping compartment and a radio will be installed.

MOST OF BRITISH HARVESTERS ARE MAKING GOOD

Winipeg.—"We are just finding out the slackers, that's all, and I am quite confident that the majority of the men are making good," declared Hon. Robert Forke, Minister of Immigration, following a conference regarding British harvesters, which he had with Thomas Gellay.

About six hundred have been sent back to England, Mr. Forke continued, and about 1,000 more will go back as having failed to make good; but that left something like eight hundred British harvesters in the western fields, who were not sent back from because they were too busy working.

He had talked with the physician who had examined 200 of the men sent on their way home and only one out of the lot had been really physically unfit, and he was subject to epileptic fits. The others could have worked had they not lacked the will. "There is plenty of work," said Mr. Forke, mentioning that 1,000 men had been wanted at Regina this morning.

He had himself come back all the way from Ottawa to find that the British harvesters on his own farm got a good start. He thought the farmers who cut the wages of British harvesters because of inexperience, were a little shabby," at the same time he agreed that men new to the work would be inferior to experienced hands.

The minister warmly praised the work of Mr. Gellay in handling affairs of the immigration sheds under most trying circumstances. "No one could have done it better," he said.

All physically unfit British harvesters will be returned to the Old Country, Mr. Forke asserted, regardless of their desire about remaining here.

A non-political committee, the League of Nations, is not held to be a probability by the Minister of Immigration.

"I do not foresee any definite changes which would regulate the immigration question to a non-political field," he said. "It is likely that it will continue to be in the hands of whatever government happens to be in power."

NEW CABINET IN BRITISH COLUMBIA

Above are pictures of four members of the new cabinet in British Columbia. The yare: 1, Premier S. F. Timine; 2, W. C. Shelly, minister of finance; 3, Joshua Hinchcliffe, minister of education; 4, R. H. Pooley, attorney-general.

Ramsay MacDonald Sails

Says He Is Sorry To Leave Canada, But Will Return

Quebec.—"I have left my heart behind me, and an sorry that I did not miss the ship, in order that I might see most of Canada," declared Right Hon. Ramsay MacDonald, former premier of Great Britain, as he sailed on the Empress of Australia on route for Southampton.

"I am going home full of most pleasant recollections of Canada. You added a wonderful country," he added, "and I hope to be back again next year. If it were left to me I would be back again next month."

"Just as soon as ever I get back to England, I will plunge right into the political life. The annual meeting of the Labor Party at Birmingham takes place first, and then I shall go to the continent for two weeks, but after that, I shall get right into the thick of it, and prepare for the general elections, which will take place next year. The results will be very good for us."

Fire Destroys Famous Hotel

Maurice McPherson At Murray Bay Is Smouldering Hotel

Murray Bay, Que.—All that now remains of the historic Hotel McPherson, a famous Canadian summer hotel here, is a smouldering waste of crumbling logs, charred rafters and twisted steel beams. Fire of undetermined origin destroyed the famous hotel which for years has been a mecca for tourists from other parts of Canada and the U.S.

According to officials of the Canada Steamship Lines, in Montreal, the estimated cost of \$500,000, fully covered by insurance. Plans had recently been drawn up for the erection of a new building to be opened in conjunction with the manner but it is stated these plans will be altered to include the construction of a new building, which is to be erected probably on the site of the destroyed mansion.

The Norwegian, Ivelsen, Bragason, which has been chartered for the season will be released. When this is done the Citta di Milano base ship of the Noble expedition will leave King's Bay on the journey Southward.

Nova Scotia Nominations

Liberals Will Have Candidates To Contest Every Seat

Halifax, N.S.—With 24 candidates already selected, and 11 conventions held, the book, the task of choosing representatives of both parties to contest in the provincial election is now being completed.

Among the four Conservative nominees was Col. Gordon Harrington, Cape Breton Centre, minister of mines, the fourth member of the Rhodes cabinet to re-appear. Six opposition candidates were chosen.

The Liberals, led by Mr. Leitch, organizers that no seats will be conceded the government by acclamation.

Plot Nipped In Bud

Numerous Arrests Made In Spain Following Discovery Of Plot Against Government

New York.—Reports from the Franco-Spanish border say numerous arrests have been made in Spain after the discovery of a plot against the government of Primo De Rivera, who is about to celebrate his fifth anniversary as dictator of Spain.

A Hondays, France, despatch says the arrests were reported to have been made in Madrid and other Spanish cities.

EVACUATION OF RHINELAND TO BE CONSIDERED

Geneva.—There are indications that Foreign Minister Briand of France, was ready for serious conversations on evacuation of the Rhineland.

In order to remain in Geneva for a second meeting of the powers on the question M. Briand cancelled a trip he had intended to make to Paris to attend a cabinet meeting.

At the first meeting on the subject, M. Briand, Chancellor Mueller of Germany, Under Secretary Von Schuler of the German foreign office, Lord Cullen of Great Britain, V. Scialoja of Italy, M. Hymans of Belgium, and M. Lucht of Japan, conferred.

Both M. Briand and Herr Mueller were smiling when they left the meeting. A communiqué issued later said:

"Conversations have commenced on the question of evacuation of the Rhineland, the discussion is still continuing and will be resumed on Thursday."

FEDERAL AID IS PROMISED FOR GRAIN CONGRESS

Ottawa, Ont.—Dr. J. H. Gribble, deputy minister of agriculture, D. T. Elderkin, manager of the Regina Fair, and J. H. Mooney, prominent western grain grower, have been holding conferences in regard to the world's seed exhibition and congress to be held in Regina in 1932.

It has been agreed that the Federal Government will assist generously in staging the congress, and a price list of \$200,000 is assured.

There will be valuable prizes for six-pound samples of various varieties of wheat, ten-pound exhibits of barley, oats, rye, buckwheat and corn, and also for clover, alfalfa, rice and millet.

A further conference has been arranged for November 10th, when it will be decided in what order to hold at Regina. To this conference those in charge of the congress will invite experts in agronomy, field husbandry, soil conservation, breeding and seedling, and more detailed plans will be formulated.

Abandon Polar Search

Italian Government Gives Up Search For Possible Survivors Of 'Balloons'

Rome, August 24.—The Italian Government has decided to abandon the search for possible survivors of the "balloon party" in the North Arctic disaster.

The search was made through the Stefani News Agency that vessels now in Spitzbergen waters would be recalled.

The search was made through the Stefani News Agency that vessels now in Spitzbergen waters would be recalled.

Chamberlain Is Improving

Health Of British Minister Of Foreign Affairs Is Much Better

Hamilton, Bermuda.—Sir Austen Chamberlain, British minister of foreign affairs, arrived here today down the gangplank of the steamer Orcadia here in a drizzle of rain. He and Lady Chamberlain and their children embarked on the launch of Col. E. R. Leigh, acting governor of Bermuda, and went ashore for a few hours stay at Clifton, the Leigh home at Prospect.

This is the first port in Sir Austen's long voyage at which he had dismounted. Observers contrasted his unaided steps down the gangplank with the fact that he was carried aboard the ship, Liverpool. Members of the party said he was showing steady improvement in health.

Gas Poisons German City

Sulphurous Fumes From Ignited Mines Create Panic In Halle

Halle, Germany.—This city has had a taste of what it might expect in future warfare when aviators attack cities with gas.

A cloud of sulphurous gas was blown over the city from nearby lignite mines poisoning hundreds of residents, including many children. Many were made so ill they had to be treated by doctors.

The whole population was thrown into panic. It was necessary to close the schools.

Los Angeles-New York Bus Service

New York.—Regular daily bus service between Los Angeles and New York was started Sept. 11, with the arrival of the first big automobile.

Cars are to leave the two cities daily, making the transcontinental trip a schedule time of five days and fourteen hours, or a day longer than the average train time.

France To Honor Tunny

Paris.—Convicted that Gen. Tunny, leader of all about boxing in France, French sportsmen are affixing a plaque to a gymnasium at 26 rue de Pontaise where Tunny, as a Marine, in 1918, took some boxing lessons.

Bomb Factory Unearthed

Lisbon, Portugal.—Government police discovered a bomb factory in Beja, a town of South Portugal. Many bombs were seized and numerous arrests were made.

Tourist Trade Increasing

Figures For 1928 Will No Doubt Show Gain Over Last Year

While it was estimated that American tourists spent \$200,000,000 in Canada last year, there is no doubt but that figures for 1928 will show fresh gains, stated H. K. Odell, assistant director of the natural resources intelligence service of the department of interior, who was in Edmonton in connection with affairs of his department.

Development of the tourist trade is of extreme importance to Canada and its value is fully recognized, said Mr. Odell. In carrying on its work, the federal branch is co-operating with the provincial governments and other local bodies.

ARE YOU RUN-DOWN?

All That Is Needed Is A Tonic To Build Up The Blood.

There are many people who have been semi-invalids so long that they accept their condition as a life burden. They have endured nervousness, indigestion and all the other ailments of a blood-poisoned system. They have been down feeling so long that they have given up hope of again enjoying good health. In blood we live and blood is the most wonderful of wonders. And as a blood-building tonic no other medicine can compare with Dr. Williams' Pink Pills. There is scarcely a spot in Canada where you will not find some formerly ailing person who has found new health through the use of Dr. Williams' Pink Pills. The experience of Mrs. Thomas Kearns, St. Mary, Que., bears out these statements. She says: "I have the greatest reason to be thankful for what Dr. Williams' Pink Pills have done for me. I was in a very weak and run-down condition. I frequently would faint and my legs trembled under me. It was almost impossible to do any housework. It seemed as if my blood had turned to water. In this weak and debilitated condition I began taking Dr. Williams' Pink Pills. I proved that they were helping me, but I continued taking the pills. I had used a dozen boxes, by which time I found myself a completely restored woman, able to do my work without fatigue, a better appetite and a sense of cheerfulness. I was no longer debilitated. For all this I thank the health-giving qualities of Dr. Williams' Pink Pills. If you are feeling run-down, give Dr. Williams' Pink Pills a fair trial and new health will be yours. You can get the pills from any druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Smart One-Piece Dress

The last patterned dress topped by patch pockets adds to the trimness of interesting one-piece dress with new neckline. It's just what you need for sports and general utility wear. It is very effective in printed lines with plain harmonizing lining over for shaped neckline, neck, inset vest and belt. Here's How

You Can Always Keep Your Farm Buildings in Good Repair

THOUSANDS of farmers have learned how easy and economical it is to keep farms up-to-date with Gyproc. Whenever repairs or alterations are required—whether new buildings are needed—they rely on this famous fireproof wallboard.

For fast, economical, fireproof construction there is nothing to equal Gyproc. It cannot warp, crack, shrink, bulge or burn. Its million-celled rock insulation protects stock from cold, heat and vermin. Saves time, saves labor, saves fuel—the easiest to erect and most satisfactory Wallboard you can buy.

"EMPIRE" Fireproof Wallboard

Recipes For This Week

(By Betty Barstey)

PORTO RICAN ROAST

- 2 pounds round of beef.
- 1 small bottle stuffed olives.
- 1 onion.
- 2 teaspoons salt.
- 1 pint canned tomatoes.
- 1 pint boiling water.

Make slits or holes in the meat with a sharp knife on each side of the roast. Cut the salt pork in small strips an inch long and stuff the holes alternately with these and with stuffed olives. Fry out the salt pork in a heavy kettle, slice the onion, fry it in fat, then remove all fat from onion and salt pork, brown the roast on all sides, and add one-half pint boiling water and the tomatoes. Season when half done. Simmer for three hours.

HONEY CREME

- 2 tablespoons granulated tapioca.
- 1 1/2 cups boiling water.
- 1/2 cup strained honey.
- 1 thin slice lemon, rind included.
- 1 teaspoon salt.
- 2 eggs.
- 1 cup evaporated raisins.
- 2 cups cake cubes.

Plump raisins, drain and cool. Add tapioca to boiling water and add lemon, salt and honey. Cook in top of double boiler until tapioca is tender. Remove from fire and beat in beaten egg yolks and raisins. Beat egg whites until stiff and add to above mixture. Place cake cubes in a buttered baking dish and pour custard over them. Bake 20 minutes in a moderate oven (350 degrees F.). Serve warm or cold.

Northeast of Arisaig, in the country ever associated with the landing and departure of Prince Charlie, lies Loch Morar. It is the deepest lake in the British Isles.

Men are more intelligent than women declares a political writer. May be that's why they have to wear double-breasted coats on hot days.

Foot Comfort

For aching feet use Minard's. Soothes and relieves pain.

In clean, bright Aluminum.

Christianity's Next Task

The signing of (1), the Treaty of Versailles in which is incorporated the covenant of the League of Nations; (2), the naval treaties at Washington; and (3), the Kellogg anti-war declaration recently at Paris, were all hailed by press, pulpit and public as important milestones along the road to permanent world peace and a better understanding among the races of the earth. Special services were held in churches to mark some of these events, while thousands of columns of editorial matter were printed lauding these notable efforts to put an end to racial animosities. And every word written or spoken in praise and support of these great peace movements was fully deserved.

But, notes the Literary Digest, the new programs for world-wide spiritual co-operation adopted by the International Missionary Council at its last meeting in Jerusalem may be considered as revolutionary in the ecclesiastical world as the above named three events are in the political world. All look to the promotion of peace, but the Jerusalem Conference, perhaps, probed deeper into problems which agitate the world and array nation against nation, race against race, and concludes the Literary Digest, while little publicity has been given to the deliberations and conclusions of the Conference held on the Mount of Olives, no bells rung or parades of praise offered, yet so much was done that posterity may rank Jerusalem with Geneva, Washington and Paris in the onward march of mankind toward international amity and the ending of racial hatred.

Among the subjects discussed on the sacred mount inside the Holy City were the race problem, the rights of minorities, the protection of women and children in industry, relations between strong and weak nations, the land question, spiritual and spiritual co-operation, relations between church and state, and various other phases of world peace. Specialists on race, industry, and international relations from the minorities section of the League of Nations and the Universities of London, Harvard and Columbia, among other institutions, were present to contribute technical knowledge as these problems were attacked.

And with what result? Following lengthy and searching study of conditions as they now exist in countries all over the world, the relation and duty of the Christian church thereto, this International Missionary Conference meeting at Jerusalem found that "the Church has not firmly and effectively set its face against race hatred, race envy, race contempt, or against racial, national and social rivalry, or against the lust for wealth and exploitation of the poor or weak."

It was evident right at the beginning of the Conference that the old attitude of superiority of the West over the East, regarding of Nordic civilization and the Christian religions as one and the same, was not acceptable. The idea of race superiority was not admitted for a moment, and the Conference indicated its belief that the basis of race prejudice is economic. In lands where races live side by side, participation by all in racial intermingling for social, cultural, and religious fellowship was declared to be the natural expression of Christianity, and was welcomed as a step toward worldwide understanding.

Who is there will deny that such belief and conclusions are in line with the teachings and spirit of the Founder of Christianity?

And does there not ensue from this conference a special message for the people of Canada, and especially for the people of Western Canada? Or late there have been unfortunate revivals of ancient campaigns by certain classes of our people against other classes based solely on questions of race and creed. Most unfortunate of all is the fact that many of the leaders in these campaigns, which are a denial of Christ's whole life and teaching, are recognized leaders in the Christian church.

It is the fond hope and devout ambition of many thousands of forward looking, patriotic Canadians that this young Dominion reaching out to its new nationhood will become a power for good in the world; that its greatness will be found not alone in its wealth of natural resources, its far-reaching trade and commerce, its cultural attainments, but these spiritual attainments and contributions to all mankind which, in the final analysis, are the true measures by which to estimate the greatness of any people or nation.

Good Job For Him

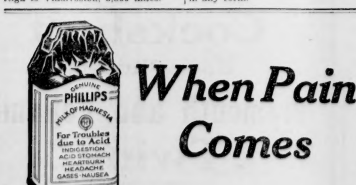

He was the slowest boy on earth, and finally he was appointed to a naturalist. He was so slow it took him an hour to feed the canary. He was so slow he took an hour to attack pine through four butterfies, and after taking all afternoon to change the goldfish's water, he asked what else he could do.

"Well," said his master, "you might take the tortoise for a run!"

Forest Fire Costs

Canada's bill for forest fire losses amounts to more than \$150 a week for every man, woman, and child of the population. Federal and Provincial Governments are putting forth efforts to reduce and eventually wipe out this heavy loss.

The longest railway run in from Higa to Vinovostok, 6,500 miles.

What many people call indigestion is often means excess acid in the stomach. The stomach serves to break down food, and food needs to be broken down. The stomach is an alkali, which neutralizes acid. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One special of this barilets.

When Pain Comes
tasteless alkali in water will neutralize instantly many times as much stomach acid as food needs to be broken down. The stomach is an alkali, which neutralizes acid. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One special of this barilets.

CHAMPION CHATTER

PUBLISHED in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEUE, Editor.

EDITORIAL
A fellow businessman of ours remarked yesterday that any man who is willing to work hard eight hours a day can make a living, but he must work nine hours to make a profit. And we guess he's about right at that.

Yes sir, we have 14 lathe combine units and boosters. They are all going along nicely and doing splendid work.

Is Got a Nick
There is nothing that will go to the head quicker if swallowed than flattery.

A very good sample of what service is actually worth to you farmers at this time was demonstrated by a feat we did today for Tom and Oscar Suttie. At 8:10 Frank Caldwell says he this morning we ordered

"Good Equipment Makes a Good Farmer Better"

the elevator for 7c per bushel by the combine method.
Primitive Dilemma
Any way Adam and Eve didn't argue every night over which radio program they ought to tune in on.

"I've been sued for breath of promise."
"How come?"
"I signalled for a left hand turn and then didn't make it."

Take our advice and don't drive your car without a license.
When ice doth drop
And coal doth soar
Fall, sure as pop
Is at the door.

It seems that someone brought in some lame ducks the other day. Someone says Dan Harper.

Many of the world's his can be traced to those who sleep too much in the daytime and not enough at night.

Frank Caldwell says he is putting his grain in

the elevator for 7c per bushel by the combine method.

Any way Adam and Eve didn't argue every night over which radio program they ought to tune in on.

Did you ever notice that the people who seem to like Champion the best are the ones who lived here longest?

No, sir, when a woman speaks of her perfect 36 she's not referring to her age.

Foreman: "Well, then, get busy with the sieve."—Selected.

FLYING POSTS IN HUDSON STRAIT

Ottawa, Sept. 18.—Permanent government flying posts in Hudson Strait are a strong possibility, it was stated today by Squadron Leader T. A. Lawrence, who with eight others had returned from 16 months' service in the north.

"Planes are almost essential in navigating the channel owing to the heavy banks of fog and it is probable that next year we will see the establishment of permanent posts in the strait," Mr. Lawrence said.

The Bible Teaches THAT Man Cannot Save Himself

Ephesians 2: 8 and 9.—For by grace are ye saved through faith; and that not of yourselves: it is the gift of God; not of works, lest any man should boast.

Therefore the Lutheran Church teaches:
You Cannot Earn Salvation.
You are invited to attend Lutheran Services in Champion Church Sunday Sept. 23rd, at 2:00 p.m.

FORD TRUCKS AND CARS

The Ford Motor Co. have opened an assembling plant in Calgary to take care of the truck trade in Alberta and we anticipate no shortage of Ford Trucks after the first of September. This plant will be turning out fifty trucks a day and the output will be increased to one hundred and fifty in a week's time. The Ford Motor Co. has promised us as many trucks as we can use between the first of September and the first of October. Come in and investigate this eleven hundred dollar wonder.

Tudor Sedan

We unloaded two more Tudor Fords this week and it looks like our waiting days are nearly over.

THE SERVICE GARAGE

Local and General

Left at Billiard Room, Champion, pair of spectacles and case. Owner call and claim them.

The Ladies' Aid will meet at the home of Mrs. P. M. Patterson on Thursday, Sept. 20th.

E. F. Crawford left for Calgary on Tuesday, where he has permanent employment at his trade.

The finder of a mackinaw coat, lost recently between A. Ash's farm and Champion, is requested to notify the Chronicle office.

Mrs. W. S. Ryan entertained on Wednesday afternoon in honor of her mother, Mrs. Dell, of Thorold, Ont., who has been on a visit here for the past month.

Most of the threshing outfits in this vicinity shut down on Tuesday owing to the high wind, but everyone was at work again on Wednesday morning.

The executive and all interested in the P.T.A. are requested to attend the first meeting this fall, to be held at 3:30 p.m. on Saturday in the brick schoolhouse.

The municipal hail insurance rate for this section has been placed at 10 per cent. It would appear this type of insurance will not be very popular in future.

K. R. McLean R. O., Sight Specialist, 208, Eighth Ave. W., Calgary, will make his monthly professional visit to Champion, at the Drug Store, Friday, September 28th.

On Sunday, Sept. 23rd, Rev. S. R. Hunt will commence a series of sermons entitled "Men Whom Jesus Made," a study of the Apostles. The first of the series will be "Philip, the Enquirer."

In the dust storm on Tuesday evening a car belonging to Roy Roberts and P. Holm's truck collided near the first crossing on the railway, damage being done to both vehicles, but no one hurt, although the car was loaded with threshers coming into town.

A misunderstanding in regard to the privileges extended by the shooting licenses issued by H. Cooper J. P. led some of the local sportsmen to include tame ducks as legitimate prey for their guns at the beginning of the season. The statement that there is no closed season for tame ducks, beyond appeasing the owner, will clarify the situation. More later.

LOCAL AND GENERAL

The lack of room at the elevators has curtailed the wheat movement considerably for the past few days. Except for special bins partly filled no grain is available.

Miss Beatrice Smith, cooking on the outfit operated by L. Church near Lethbridge, had the misfortune to fall off the cook's steps, injuring her spine severely. She was taken to the Lethbridge hospital for attention.

A new Chevrolet car owned by G. Jordan suffered badly in a collision with a McLaughlin car driven by Gerald Groves on Friday last, east of town. The occupants of the cars were unhurt.

The power line is being extended to the Pioneer elevator and it is expected everything will be ready to take in grain by Friday or Saturday. The extra storage space will be extremely welcome at the present time when all the houses are practically full of grain.

The new school building is making rapid progress and will be a highly creditable structure when completed. The financial situation created by its construction must be partly covered by the collection of overdue school taxes and in consequence dilatory ratepayers are finding themselves approached in a more or less pre-emptory manner in regard to arrears.

Under the pressure of grain loaded trucks and other vehicles the roads, which were rough at the beginning of the grain movement are improving rapidly. The continued dry weather, however, has made driving in many instances uncomfortable owing to the big cloud of dust that accompanies every vehicle moving at any speed. Rain is undesirable from every point of view except that of the motorist who would like to see the dust laid, at least.

Now that threshing is well advanced the rush and hurry that marked it are over to a great extent and there is time to reflect on the amount of new machinery, etc., purchased for the handling of this year's crop. It is very doubtful if an equal amount was ever reached in the history of the country. The change from binders to combines and from horses to gasoline power were the prime factors in the extra large movement of new machinery and while considerable economy will be effected by the use of the new purchases there is no getting away from the fact that there will be big bills to pay for some time to come.

A MODERN MISTAKE

"Ah," said the guest as they approached the house, "I see your dear son and daughter awaiting us on the porch."

"No," said the host, "the girl in the short frock is my mother, and the

4 Great Advantages

Others would Pay Millions to be Able to Give.

NO carbon troubles... No valve grinding... Lower up-keep cost... No periodic lay-ups... 4 great advantages... The Willys-Knight sleeve-valve engine assures them all.

The sleeve-valve motor of the Willys-Knight is an exclusive feature which other manufacturers would pay millions to get... but it is protected by patent.

Instead of gradually losing in power and efficiency, in smoothness and silence, as do all cars of poppet-valve design, the sleeve-valve engine actually improves with use. It grows quieter, more powerful and more efficient with every mile and every point of the car.

And now—Beltex Shackles—still another new and exclusive Willys-Knight feature—Beltex eliminates the metal parts of the car are insulated from the unsprung parts with a noiseless, flexible fabric—shock absorbing, rubber-hood—thereby giving permanent chassis alignment and diminishing wear at every point of the car.

70" Willys-Knight six prices from \$1625 to \$1800; Willys-Knight Great Six, from \$2575 to \$3050; L.O.B. factory, Toronto, taxes extra.
